Task Description

Project Submit - Uno Projec...	Oct 24, 2024	Oct 28, 2024	Upcoming

This project, tentatively titled "Uno Projec..." (please provide the full title), aims to develop a new mobile app for ordering food online. To achieve this goal, we will focus on improving the user experience, expanding our delivery network, and increasing customer satisfaction. The project will be carried out within a 6-month timeframe, with key milestones including completing the app's design by the end of the second month, launching a beta version by the end of the fourth month, and officially launching the app to the public by the end of the sixth month.
